INITIATED BY: MPO Staff/TxDOT STAFF SOURCE Juan S. Mendive, Interim MPO Director

PREVIOUS ACTION: The MPO Policy Committee approved Resolution No. MPO 2020-06 adopting the 2021-2024 TIP on June 15, 2020. The previous formal revision to the 2021-2024 TIP was approved by the Policy Committee on February 19, 2021. On January 25, 2022, the Policy Committee initiated a 10-day public review and comment period for the proposed revision to the 2021-2024 TIP.

BACKGROUND:

The Transportation Improvement Program (TIP) is a federally required document which MPO's develop in cooperation with all their planning partners to program mobility and transit projects for a four-year period. On June 15th, 2020, the MPO Policy Committee approved the Laredo MPO 2021-2024 TIP. All MPO TIP documents are subsequently combined to form the Statewide Transportation Improvement Program (STIP). Revisions to the TIP involving major changes require a public review and comment period and formal action by the MPO Policy Committee. The public comment and review period was initiated on January 25, 2022.

During the public comment and review period, FHWA requested that the project description for the World Trade Bridge expansion be modified to include the number of existing lanes and proposed new lanes. The project description has been updated accordingly. No other comments were received.

- 1. **Addition** of project CSJ 0922-33-213 intended to provide for preliminary engineering and construction for the expansion of the World Trade Bridge consisting of 8 lanes by building a new 8 lane bridge adjacent to the existing bridge for a total of 16 lanes after completion of the project. The estimated construction cost is \$12,000,000 with an estimated total project cost of \$16,000,000. The project sponsor is the City of Laredo and the proposed letting date is FY2024.
- 2. **Revision** of Appendix A Short Range Projects Identified in the MTP and Listed in the TIP as necessary to incorporate and reflect the proposed revisions to the 2021-2024 TIP.

INITIATED BY: MPO Staff/TxDOT STAFF SOURCE Juan S. Mendive, Interim MPO Director

PREVIOUS ACTION: On January 21, 2020, the Policy Committee adopted the 2020-2045 Metropolitan Transportation Plan (MTP). The Policy Committee approved Revision #1 on April, 20, 2020. Revision #2 was approved on June 15, 2020. Revision #3 was approved by the Policy Committee on February 22, 2021. On January 25, 2022, the Policy Committee initiated a 10-day public review and comment period for the proposed revisions to the MTP.

BACKGROUND:

Metropolitan Planning Organizations are required to develop and update the Metropolitan Transportation Plan (MTP) for their respective metropolitan area covering a planning horizon of at least 20 years. The Laredo Metropolitan Transportation Plan is an official, comprehensive, intermodal transportation plan developed and adopted for the metropolitan planning area. The 2020-2045 MTP identifies the existing and future transportation needs and develops coordinated strategies to provide the necessary transportation facilities essential for the continued mobility and economic vitality of the region.

Projects included in the MPO's Transportation Improvement Program shall be consistent with the approved Metropolitan Transportation Plan. On April 19, 2021, an administrative modification to the MTP added Appendix A – Short Range Projects Identified in the MTP and Listed in the Transportation Improvement Program (TIP) to facilitate the identification of projects on both the TIP and the MTP, and to ensure consistency between both documents.

The proposed revision is intended to add the World Trade Bridge project to the Metropolitan Transportation Plan and to make the necessary changes to the MTP, specifically *Appendix A – Short Range Projects Identified in the MTP and Listed in the TIP* to incorporate and reflect the proposed revisions to the 2021-2024 TIP. During the public comment and review period, FHWA requested that the project description for the World Trade Bridge expansion be modified to include the number of existing lanes and proposed new lanes. The project description has been updated accordingly. No other comments were received.
