

MPO TECHNICAL COMMITTEE MEETING

www.laredompo.org

Meeting Date & Time: May 10, 2022 2:30 p.m.

Meeting Location: Virtual

AGENDA:

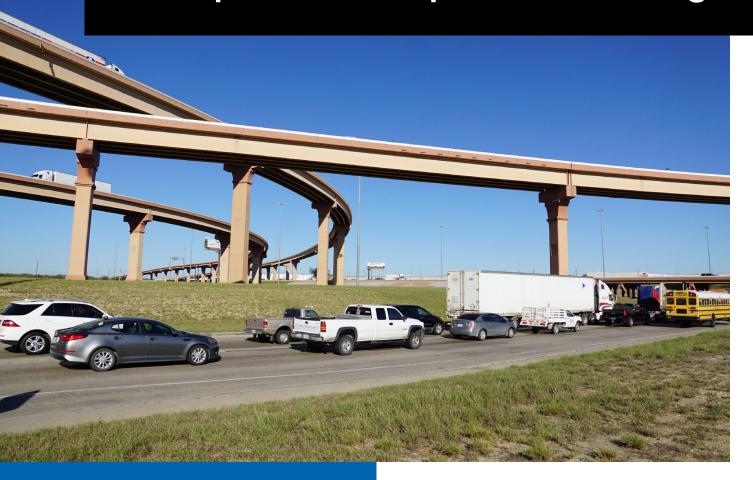

- 1. Chairperson to call meeting to order.
- 2. Discussion and recommendation on Resolution No. MPO 2022-05, adopting the 2023-2026 Transportation Improvement Program (TIP).
- 3. Discussion on potential planning studies to be programmed in the FY 2023 Unified Planning Work Program (UPWP).
- 4. Update on the upcoming MPO Policy Committee meeting draft agenda.
- 5. Discussion of old or new business.
- 6. Adjournment.

FY 2023-2026

Transportation Improvement Program

Public Meeting Date(s): April 20th, 2022, May 18th, 2022

I. INTRODUCTION

In 1962, the Federal Aid Highway Act stated, that after July 1, 1965, the Secretary of Commerce shall not approve any program for highway projects in any urban area of more than fifty thousand population unless he finds that such projects are based on a continuing, comprehensive transportation planning process carried on cooperatively by the states and local communities. This directive, resulted in the creation of the Laredo Urban Transportation Study (LUTS), recently renamed as the Laredo Webb County Area Metropolitan Planning Organization (MPO), to provide for a continuing, comprehensive, and cooperative transportation planning process for the Laredo Urbanized area as mandated by the Act.

In 1973, the Federal Aid Highway Act, created the Metropolitan Planning Organizations (MPO) to be the recipient of special planning funds ("PL" funds) and responsible for Section 112 transportation planning.

In 1979, the Governor of Texas designated the LUTS Steering Committee as the MPO for the Laredo Urbanized Area. A contract between the then State Department of Highways and Public Transportation (SDHPT), the LUTS Steering Committee, and City of Laredo identified the cooperative responsibilities of the State, the MPO and the City. These responsibilities must now conform to 23 U. S. C. 134 on metropolitan transportation planning. The Fixing America's Surface Transportation (FAST) Act, was signed into law by President Obama on December 4, 2015. The authorization of the FAST Act does not represent an abandonment of the programs and planning requirements established under the Safe, Accountable, Flexible and Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) and Moving Ahead for Progress in 21st Century (MAP-21), the previous federal transportation bills. Many of the same programs and metropolitan planning requirements are continued under the FAST Act.

The Laredo urbanized area, as determined by the 2010 Census, has surpassed 200,000 in population, and was designated a Transportation Management Area effective July 18th, 2012. It has not been designated as a non-attainment area for purposes of compliance with the Clean Air Act. The MPO, in cooperation with the Texas Department of Transportation (TxDOT) and the local transit operator, has proposed simplified planning procedures authorized by 23 C. F. R. Part 450 Subpart C.

The Transportation Improvement Program (TIP) is designed and developed to conform to the requirements of 23 C. F. R. 450.316(a) as well as the 10 factors of identified in the FAST Act.

Planning Factors

The ten planning factors are as follows:

- 1) Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency.
- 2) Increase the safety of the transportation system for motorized and non-motorized users.
- 3) Increase the security of the transportation system for motorized and non-motorized users.
- 4) Increase the accessibility and mobility for people and freight.

- 5) Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns.
- 6) Enhance the integration and connectivity of the transportation system, across and between modes, people, and freight.
- 7) Promote efficient system management and operation.
- 8) Emphasize the preservation of the existing transportation system, and,
- 9) Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and,
- 10) Enhance travel and tourism.

II. PURPOSE

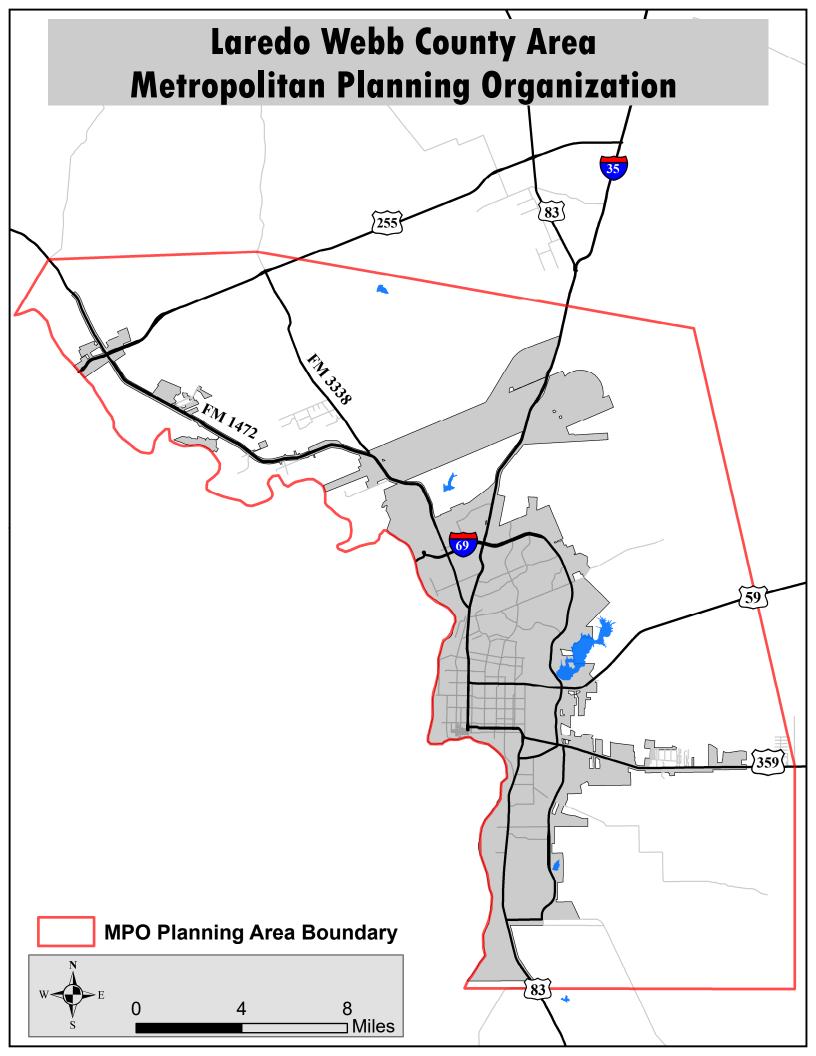

Federal law requires that Metropolitan Planning Organizations (MPOs) in cooperation with the State and affected transit operators develop Transportation Improvement Programs (TIPs) for their planning areas. These Transportation Programs then become part of the State Transportation Improvement Program (STIP). The Transportation Improvement Program shall include capital and non-capital surface transportation projects (or phases of projects) within the boundaries of the metropolitan planning area proposed for funding under 23 U.S.C. and 49 U.S.C. Chapter 53 (including transportation enhancements; Federal Lands Highway program projects; safety projects included in the State's Strategic Highway Safety Plan; trails projects; pedestrian walkways; and bicycle facilities), except those projects that may (but are not required to) be included as identified in 23 CFR Part 450 Subpart C, 450.324(c).

These projects are consistent with the long-range plan of the state. Project selection for projects involving Federal participation is carried out by the MPO in consultation with the State DOT. The program will include a project, or an identified phase of a project, only if full funding can reasonably be anticipated to be available within the time period that is contemplated for completion of the project.

The Texas Department of Transportation (TxDOT), and the Laredo Webb County Area Metropolitan Planning Organization (MPO) have cooperatively developed the current TIP in accordance with the requirements of the FAST Act and is financially constrained.

III. DEFINITION OF AREA

The boundaries of the Metropolitan Planning Area and the Urbanized area were approved by the MPO on April 8, 2004, (see map).

IV. PUBLIC INVOLVEMENT PROCESS

The Laredo Webb County Area Metropolitan Planning Organization (MPO) developed, in cooperation with the State and FHWA, and in conformance with the requirements of 23 CFR 450.316, its adopted Public Participation Plan. The Laredo MPO's Public Involvement Process (PIP) was adopted on June 9th, 1994 and subsequently amended on November 22nd, 1996, on July 24th, 2003, and on May 15th, 2017. After a required 45-day public review and comment period, the Laredo MPO Policy Committee adopted the Public Participation Plan (PPP) which replaced the PIP. The PPP is intended to provide every opportunity for the involvement of citizens in the transportation planning process in conformance with the requirements of 23 CFR 450.316 (a).

V. PROJECT SELECTION PROCESS

The Metropolitan Transportation Plan (MTP) is the primary planning tool for selecting major projects to be included in the Unified Transportation Program (UTP) and TIP. On January 21st, 2020, the Laredo MPO, adopted the current MTP, including its Project Selection Procedures, at a public meeting held, which was noticed, and whose agenda was posted pursuant to the requirements of the Texas Open Meetings Act. Only projects consistent with a FHWA/FTA approved MTP and/or TIP may be eligible for funds administered by FHWA or FTA. The approved Transportation Improvement Program shall be utilized for programming projects within the metropolitan area in accordance with 23 CFR 450.330 (a) and (c).

VI. PROGRESS FROM PREVIOUS YEAR

The FY 2021-2024 TIP was adopted on a May 18th, 2020. Enclosed is a summary detailing the status of ongoing projects.

VII. PERFORMANCE MANAGEMENT

Transportation Performance Management is a strategic approach that uses system information to make investment and policy decisions to achieve national performance goals. Monitoring progress towards achieving these national performance goals is achieved through the use of performance measures. Using performance measures, decision makers can apply key information and data to understand the consequences of investment decisions across transportation modes.

The previous transportation funding bill, MAP-21, introduced a streamlined, performance-based, multimodal program. Through performance management, MAP-21 aimed to increase the accountability and transparency of the federal highway programs by improving transportation investment decision-making through performance-based planning and programming. The FAST Act continues the use of performance targets and performance measures at the national, state, and local level that were established with MAP-21. All established performance targets and measures should align with the national goals outlined in MAP-21, which are as follows:

Goal Area	National Goal			
Safety	To achieve a significant reduction in traffic fatalities and serious injuries on all public roads.			
Infrastructure Condition	To maintain the highway infrastructure asset system in a state of good repair.			
Congestion Reduction	To achieve a significant reduction in congestion on the National Highway System.			
System Reliability	To improve the efficiency of the surface transportation system.			
Freight Movement and Economic Vitality	To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development.			
Environmental Sustainability	To enhance the performance of the transportation system while protecting and enhancing the natural environment.			
Reduced Project Delivery Delays	To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices.			

MPOs are required to set performance targets and measures after the United States Department of Transportation and the State of Texas set national and state targets and measures. The MPO will maintain awareness of the performance measures process at both the federal and state level and will implement performance measures at the MPO level as appropriate. If the process of implementing performance measures requires additions or changes to the MTP and TIP, the documents will be amended in the future.

Currently, the FAST Act requires State DOTs and MPOs to establish performance targets and report on the progress toward achieving these targets for the following performance measures:

Safety (PM1)

The Texas Department of Transportation (TxDOT) has established targets for five safety performance measures based on five-year rolling averages:

Performance Measure	2022 Statewide Target (Expressed as Five-Year 2018-2022 Average)
Total number of traffic related fatalities on all public roads	3,563
Rate of traffic related fatalities on all public roads per 100 million VMT	1.27
Total number of traffic related serious injuries on all public roads	16,677
Rate of traffic related serious injuries on all public roads per 100 million VMT	5.76
Total number of non-motorized fatalities and serious injuries on all public roads	2,367

The MPO adopts TxDOT's safety performance targets within the metropolitan planning area boundary. The MPO supports the planning and programming of projects that contribute to the achievement of these targets.

For project selection, safety is one criterion where technical points are awarded based on the crash rate. Many projects adopted in the FY 2023-2026 TIP support achieving the targets established for safety. The MPO will monitor the established targets and report measurements to the Policy Committee.

Pavement and Bridge Condition (PM2)

Under the FAST Act, States are required to set targets for Bridge and Pavement Conditions for both Interstate and Non-Interstate National Highway System Roadways. The State's Pavement and Bridge Measures (PM2):

- 1) Percentage of Interstate System pavement in good or better condition.
- 2) Percentage of Interstate System pavement in poor condition.
- 3) Percentage of Non-Interstate National Highway pavement in good condition.
- 4) Percentage of Non-Interstate National Highway pavement in poor condition.
- 5) Percentage of Bridge Deck on the National Highway System in good condition.
- 6) Percentage of Bridge Deck on the National Highway System in poor condition.

The Laredo Webb County Area MPO Policy Committee has adopted the States measures and targets. These targets are as follows:

Performance Measure	Baseline	2020 Target	2022 Target (Original)	2022 Target (Updated)
Pavement on Interstate				
% in "good" condition			66.40%	66.5%
% in "poor" condition			0.33%	0.2%
Pavement on Non-Inter	rstate Highwa	y (NHS)		
% in "good" condition	54.40%	52.00%	52.33%	54.1%
% in "poor" condition	13.80%	14.30%	14.30%	14.2%
NHS Bridge Deck Cond				
% in "poor" condition	0.88%	0.80%	0.80%	1.5%
% in "good" condition	50.63%	50.58%	50.42%	50.4%

Projects selected for inclusion in the TIP are intended to support the achievement of the pavement and bridge condition targets. The MPO Policy Committee supports the planning and programming of projects that contribute to the achievement of these targets.

Roadway System Performance (PM3)

Under the FAST Act, States are required to set targets for roadway system performance, specifically Interstate Reliability, non – Interstate national Highway System Reliability and Truck Travel Time Reliability. The State's System Performance Measures (PM3) are as follows:

- 1) Percentage of person-miles traveled on the Interstate system rated "reliable" (TTR-IH).
- 2) Percentage of person-miles traveled on Non-Interstate National Highway System facilities rated "reliable" (TTR Non-IH).
- 3) Percentage of truck travel time on the Interstate system rated as "reliable" (TTTR). The MPO Policy Board has adopted TxDOT's targets in support of the State meeting its targets.

The Laredo Webb County Area MPO's has incorporated the following targets into the metropolitan transportation planning process and has utilized said targets as a tool in the planning and programming of projects:

Performance Measure	Baseline	2020 Target	2022 Target (Original)	2022 Target (Updated)
Reliability				
Interstate Highway (IH) Level of Travel Time Reliability.	79.60%	61.20%	56.60%	70.0%
Non-Interstate Highway (NHS) Travel Time Reliability.			55.40%	70.0%
Truck Travel Time Reliability (TTTR) Index.	1.5	1.7	1.79	1.76

The Laredo MPO commits to planning for and programming projects that contribute to the accomplishment of these targets. The Laredo MPO will also monitor all of the established targets and report achievements to the Policy Committee as necessary.

Transit State of Good Repair (PM4)

MAP-21 and later the FAST Act mandated the Federal Transit Administration (FTA) to develop a rule establishing a strategic and systematic process of operating, maintaining, and improving public capital assets effectively through their entire life cycle. Under the Transit Asset Management (TAM) Final Rule, the FTA established four performance measures to approximate the State of Good Repair for four categories of capital assets. El Metro has adopted targets for three of the applicable transit asset management performance measures. These performance measures and targets will assist El Metro to quantify the condition of their assets and help facilitate target setting that supports local funding prioritization.

Asset Category	FTA established Performance Measure	Performance Target
Rolling Stock	% of revenue vehicles exceeding useable life benchmark (ULB)	75% of vehicles should be within their useable life benchmark (ULB)
Equipment	% of non-revenue service vehicles exceeding ULB	75% Equipment should be within their ULB
Facilities	% of facilities rated under 3.0 on the Transit Economic Requirements Model (TERM) scale	75% of facilities rated on a FTA TERM scale of 3.0 or above.
Infrastructure	% of track segments under performance restriction	Not applicable

The MPO Policy Committee adopted El Metro's transit performance measurement targets in 2017.

The MPO supports the planning and programming of projects that contribute to the accomplishments of these performance targets. The transit projects adopted in the TIP are intended to support achieving the targets established for the transit state of good repair.

Public Transportation Agency Safety Plan (PTASP)

On July 19, 2018, FTA published the Public Transportation Agency Safety Plan (PTASP) Final Rule, which requires certain operators of public transportation systems that receive federal funds under FTA's Urbanized Area Formula Grants to develop safety plans that include the processes and procedures to implement Safety Management Systems (SMS).

The PTASP has been developed by TxDOT on behalf of Laredo & Webb county Area Metropolitan Planning Organization, which is the Metropolitan Planning Organization (MPO) for the area, and LTMI in accordance with all requirements stated in 49 CFR Part 673

applicable to a small public transportation provider. The third version of the PTASP was adopted by the Mass Transit Board on March 21, 2022 and approved by the MPO Policy Committee on April 20, 2022.

Federal law requires transit agencies to make its safety performance targets available to States and MPOs to aid in the planning process. MPOs are responsible for integrating performance from PTASP into their planning process.

VIII. AIR QUALITY ISSUES

The Laredo metropolitan planning area is considered to be in attainment for ozone and carbon monoxide. The City's transit department is currently in the process of replacing its diesel vehicles with those which utilize compressed natural gas. Over 50% of all City buses currently operate on compressed natural gas.

IX. AMERICANS WITH DISABILITIES ACT (ADA)

The City Transit Department has created the EI Lift Program to address ADA considerations. The Transit Department has also actively pursues the strengthening of this program through their development and participation in the ADA Paratransit Study, sponsored by the MPO, and completed in 2013 which reviewed the program in its entirety with an emphasis on identification of areas for improvement.

X. GROUPED STATEWIDE PROJECTS

Under 23 CFR 450.324(i) projects proposed for FHWA and/or FTA funding that are not considered by the State and MPO to be of appropriate scale for individual identification in a given program year <u>may be grouped by function, geographic area, and work type</u> by using applicable classifications under 23 CFR 771.1 I 7(c) and (d). In non-attainment and maintenance areas, these classifications must be consistent with the exempt project classifications contained in the U.S. EPA transportation conformity requirements (40 CFR Part 51).

The Laredo Webb County Area MPO is participating by grouping some projects in the Transportation Improvement Program (TIP) that are covered in the Texas Statewide Transportation Improvement Program (STIP).

The Texas STIP can be located at:

https://www.txdot.gov/inside-txdot/division/transportation-planning/stips.html

Financial accountability for these projects is the responsibility of the STIP, therefore, are not accounted for in the Financial Summary for the Laredo MPO totals. These projects are "exempt" from conformity requirements. These projects do not need policy approval by the Policy Committee for the purpose of revisions. See the following grouped project categories, and the "Definition of Grouped Projects."

GROUPED PROJECT CSJ's Definition of Grouped Projects for use in the STIP Revised February 23, 2021

PROPOSED CSJ	GROUPED PROJECT CATEGORY	DEFINITION
5000-00-950	PE-Preliminary Engineering	Preliminary Engineering for any project except added capacity projects in a nonattainment area. Includes activities which do not involve or lead directly to construction, such as planning and research activities; grants for training; engineering to define the elements of a proposed action or alternatives so that social, economic, and environmental effects can be assessed.
5000-00-951	Right of Way	Right of Way acquisition for any project except added capacity projects in a nonattainment area. Includes relocation assistance, hardship acquisition and protective buying.
5000-00-952 5000-00-957 5000-00-958	Preventive Maintenance and Rehabilitation	Projects to include pavement repair to preserve existing pavement so that it may achieve its designed loading. Includes seal coats, overlays, resurfacing, restoration and rehabilitation done with existing ROW. Also includes modernization of a highway by reconstruction, adding shoulders or adding auxiliary lanes (e.g., parking, weaving, turning, climbing, passing, non-added capacity) or drainage improvements associated with rehabilitation [See Note 3].
5000-00-953	Bridge Replacement and Rehabilitation	Projects to replace and/or rehabilitate functionally obsolete or structurally deficient bridges.
5000-00-954	Railroad Grade Separations	Projects to construct or replace existing highway-railroad grade crossings and to rehabilitate and/or replace deficient railroad underpasses, resulting in no added capacity.
5800-00-950	Safety	Projects to include the construction or replacement/rehabilitation of guard rails, median barriers, crash cushions, pavement markings, skid treatments, medians, lighting improvements, highway signs, curb ramps, railroad/highway crossing warning devices, fencing, intersection improvements (e.g., turn lanes), signalization projects and interchange modifications. Also includes projects funded via the Federal Hazard Elimination Program, Federal Railroad Signal Safety Program, or Access Managements projects, except those that result in added capacity.

PROPOSED CSJ	GROUPED PROJECT CATEGORY	DEFINITION
5000-00-956	Landscaping	Project consisting of typical right-of-way landscape development, establishment and aesthetic improvements to include any associated erosion control and environmental mitigation activities.
5800-00-915	Intelligent Transportation System Deployment	Highway traffic operation improvement projects including the installation of ramp metering control devices, variable message signs, traffic monitoring equipment and projects in the Federal ITS/IVHS programs.
5000-00-916	Bicycle and Pedestrian	Projects including bicycle and pedestrian lanes, paths and facilities (e.g., sidewalks, shared use paths, side paths, trails, bicycle boulevards, curb extensions, bicycle parking facilities, bikeshare facilities, etc.). Safe Routes to School non-infrastructure related activities (e.g. enforcement, tools, and education programs).
5000-00-917	Safety Rest Areas and Truck Weigh Stations.	Construction and improvement of rest areas, and truck weigh stations.
5000-00-918	Transit Improvements and Programs	Projects include the construction and improvement of small passenger shelters and information kiosks. Also includes the construction and improvement of rail storage/maintenance facilities bus transfer facilities where minor amounts of additional land are required and there is not a substantial increase in the number of users. Also includes transit operating assistance, preventative maintenance of transit vehicles and facilities. acquisition of third-party transit services, and transit marketing, and mobility management/coordination. Additionally, includes the purchase of new buses and rail cars to replace existing vehicles or for minor expansions of the fleet [See Note 4].
5000-00-919	Recreational Trails Program	Off-Highway Vehicle (OHV), Equestrian, Recreational Water/Paddling Trails and related facilities; Recreational Trails related education and safety programs.

Note 1: Projects eligible for grouping include associated project phases (Preliminary Engineering, Right-Of-Way and Construction).

Note 2: Projects funded with Congestion Mitigation Air Quality funding require a Federal eligibility determination, and are not approved to be grouped.

Note 3: Passing lanes include "SUPER 2" lanes consistent with TxDOT's Roadway Design Manual.

Note 4: In PM10 and PM2.5 nonattainment or maintenance areas, such projects may be grouped only if they are in compliance with control measures in the applicable implementation plan.

Note 5: Projects funded as part of the Recreational Trails Program (RTP) and Transportation Alternatives (TA) Program consistent with the grouped project category definitions may be grouped. RTP or TA funded projects that are not consistent with the grouped project category definitions must be individually noted in the Transportation Improvement Program (TIP) and State Transportation Improvement Program (STIP). Road diet projects may not be grouped.
