

Project Description

Provide a brief description of the proposed project, which includes the project location, limits, facility type, and width. Special construction items, such as bicycle/pedestrian bridges, or elements that would affect automobile traffic patterns (e.g. new signals, new medians, road diets, traffic calming, etc.) should be included.

An example Project Description:

Proposed project will construct a 12-foot-wide shared use path (SUP) along the north side of US 171 from Main St to 4th Street in Redding, TX. The proposed SUP will include a pedestrian island, crosswalks, a Pedestrian Hybrid Beacon, and signage to traverse a 5-lane intersection at 4th Street where the path connects to the Sandy Creek Trail. Additional signage and crosswalks will be added to cross two other local streets.
